

Tiger Heavy Duty Beam Clamp

Main Features

The Tiger heavy duty beam clamp is suitable for attachment to steel beams as a semi-permanent lifting point

The beam clamp is fitted with a screw spindle which allows easy adjustment and high clamping force to the various flange sizes within its capacity

Low headroom because of the built in suspension bar

Safety factor up to 5 times SWL

Range from 1.0t to 5.0t

Product Code	Capacity (tonne)	Dimensions (mm)									Weight (kg)
		A	B	C	D	E	F	G	ØJ	K	
BC1000T	1.0	72-210	182-328	77	26	190	144-117	52-38	Ø20	34	4.0
BC2000T	2.0	75-210	182-328	85	26	190	144-117	52-38	Ø20	34	4.6
